

GUARD MANAGEMENT SYSTEM

Revolutionize Security Operations with Traxmate Guard Management System (GMS).

In the dynamic world of security, guards constantly face challenges that demand swift and efficient responses. Traxmate GMS, with body-worn cameras and Combain AI Indoor, has been crafted to meet these challenges head-on. Our solution empowers safety guards with state-of-the-art technology to ensure the safety of all and elevate operational efficiency.

Once cameras are deployed, real-time monitoring becomes effortless, all while providing smart dashboards to track guard positions, monitor alarms, set geofences, etc to enhance your facility's security.

MAIN FEATURES OF TRAXMATE GMS

REAL-TIME MONITORING FOR UNPARALLELED SAFETY

Traxmate GMS facilitates real-time monitoring of guard activities. By keeping a watchful eye on your team and their surroundings, it ensures their safety and the security of your premises. Stay in control with continuous visibility.

IMMEDIATE INCIDENT RESPONSE

With instant alerts and notifications, our system enables you to respond rapidly to incidents. Whether it's an emergency situation or a suspicious activity, Traxmate GMS empowers you to take immediate, effective action.

OPTIMIZED RESOURCE ALLOCATION

Efficient resource allocation is critical. Traxmate GMS helps you strategically deploy your team, ensuring that your security operations run smoothly and effectively. Make the most of your resources.

COMPREHENSIVE RECORD-KEEPING AND ANALYSIS

Accurate record-keeping is at the core of effective security management. Traxmate GMS automatically logs all activities, simplifying the tracking of incidents, guard positions, and historical data for in-depth analysis and reporting.

MORALE AND PROFESSIONALISM BOOST

Our system not only guarantees safety but also enhances guard morale and professionalism. Empower your team with advanced tools, instilling motivation and confidence in handling diverse security scenarios.

THE BUILDING BLOCKS OF THE ULTIMATE SECURITY SOLUTION FOR SAFETY GUARDS

BODY-WORN CAMERAS

Equip your security team with body-worn cameras, the industry standard for reliability and performance. Capture real-time video and audio, providing invaluable evidence and acting as a powerful deterrent against potential threats.

COMBAIN AI INDOOR

Elevate your indoor security with Combain AI Indoor. By seamlessly incorporating artificial intelligence, this cutting-edge technology elevates situational awareness, identifies irregularities, and provides instantaneous, actionable insights. Stay ahead of the curve with proactive incident response and create a secure environment for all.

YOUR COMPREHENSIVE SECURITY MANAGEMENT SYSTEMS

VERSATILE SAAS PLATFORM

Enjoy the convenience and flexibility of our cloud-based solution, accessible anytime, anywhere.

ON-PREMISES SELF-HOSTED OPTION

Need more control? Choose our on-premises self-hosted option for enhanced data security and autonomy over your guard management infrastructure.

DEVICE COMPATIBILITY

Traxmate GMS seamlessly supports various device types, making integration a breeze. Plus, adding new devices is a snap, ensuring your system is always up-to-date.

WHITE-LABELING & CUSTOMIZATION

Tailor the platform to your brand identity with our white-labeling capabilities. Additionally, enjoy the flexibility of customizing features to meet your specific requirements. We're here to make sure you have the tools you need for maximum efficiency.

YOUR EFFICIENCY, OUR PRIORITY

At Traxmate, we understand the importance of efficiency and functionality in security management. That's why the Traxmate GMS is designed to empower you with the control and adaptability you require. Say goodbye to one-size-fits-all solutions and embrace a platform that evolves with you.

TRAXMATE GMS - YOUR TRUSTED SECURITY PARTNER

Choose Traxmate GMS for a seamless security management experience, whether you prefer our versatile SaaS platform or the on-premises self-hosted option.

Invest not just in a system but in the safety and efficiency of your security operations. Elevate your security endeavors with Traxmate GMS, body-worn cameras, and Combain AI Indoor.
